

Meeting promoted by the PRIN2006 Group:

"Micas: cation ordering, anionic composition as petrogenetic control factors"

This meeting, which is opened to all the interested colleagues, will address the recent developments on mica knowledge. The meeting, which is scheduled on March 27 2008, afternoon, will be articulated as follows:

- 14:00 - 16:00: Major scientific achievements from each Research Unit during 2007 (i.e. the first year of the project).
- 16:00 - 16:30: Coffee Break
- 16:30 - 18:00: Open discussion and Round table on possible future trends on mica research.

The attendance of the meeting is obviously free of charge and opened to all the people interested. For logistic sake, if you plan to attend the meeting and you do not belong to the PRIN units, you are welcome to contact one of the following people:

Maria Franca Brigatti. brigatti@unimore.it

Daniele Malferrari. dmalf@unimore.it

Stefania Laurora. laurora@unimore.it
